## La Barra

Our Central Nicaragua jewel, located on the edge of the ocean over looking a beach break, reef and point provides an advantage to our guests like no other camp in the area. La Barra Surf Camps traditional Nicaraguan touch with the comfort of home allow our guest to slip into the slow ride of Nica immediately upon arrival. AST runs two super pangas providing our guest all surf transfers by boat, placing them in empty line ups throughout the Central Region of Nicaragua. The Worldclass left hander La Barra "Puerto Sandino" breaks for nearly 300 meters with several barrel sections allowing guests to clearly test their abilities. In the Central Region there are nearly 25 surf breaks with only 7 accessible by car, clearly allowing AST an advantage in this region. Day trips are also provided with additional cost to Meat Grinders in San Diego and The Boom in Chinandega. Surf locations can be viewed on our company websites: [www.astadventures.com](http://www.astadventures.com) or [www.labarrasurfcamp.com](http://www.labarrasurfcamp.com) for further information.

If you want to place your team or clients in an area with no local surfers and limited access to all breaks this is the optimal location.

## Testimonial

"The AST multi-country tour was one of the best travel experiences of my life. The three locations are located directly in front of a few of Central America's best waves, with many others less than fifteen minutes by car and boat. I've traveled extensively; as have Chippa Wilson, Nathan Florence, and Dillon Perillo—and each of us was genuinely blown away by the unique experience we were offered, traveling over 500 miles through three countries in one week, and surfing more than we could even handle in both El Salvador and Nicaragua.

The staff was great, the guides knowledgeable, and the food amazing. At each different property, we could surf at our own leisure, hang out in the pool, hammocks, on the beach, and literally watch the surf all day and be on it every time it was good—which in our case was a lot.

Even if I couldn't do the whole tour, I'd go back to any of the three locations in a heartbeat; as each was beautiful and each offered waves that anyone in the world be stoked to surf.

"We absolutely scored the entire trip. We looked at the swell charts and made a good call. I love Las Flores and Punta Mango. I'd been there once before and fell in love with the area. This trip definitely ranked right up there with the best of them. The accommodations were perfect for the type of trip we planned. Just an all guy crew focused on surfing a lot all day. The food was excellent! Good variety and there were always veggies. Staff around the camp was friendly and always accommodating. The trip was a slam dunk!"

- Chad Wells, QST Surf Team Manager

"My AST Trip to El Salvador was a total first class operation. The waves were perfect everyday and the the staff and food and the clean rooms with air etc etc etc was perfect. I could go on and on, but Dave Halls operation there is amazing. Miguel our boat driver was amazing, Tito our guide was the coolest and most helpful dude ever, and Ernesto and his wife made sure the food was insane. They even would just bring food to our rooms. Wow....Totally impressed. Felt safe the whole time, zero issues. The view from the camp was incredible, I seriously can't wait to go back. Thanks so much Dave for this great unforgettable experience. Yewwwwww"

AST recently approached Transworld Surf about our Central American Drive Thru starting in El Salvador and ending in Nicaragua, well this ended up with an 18 page editorial, 2 webisodes, and 5 mintues in the newly released movie Lets Surf Seriously. Slide Magazine provided 3 editorials on Nicaragua in 2012, AST approached Slide with a proposition to possibly do an editorial on El Salvador with the end result being the mag covershot and 17 pages of editorial. AST will ensure to the brand that your defined goals are our goals and we will do everything possible to help you achieve them.
